

Dear Mr Bloomfield

At a meeting yesterday evening, members of the Henley Society planning committee expressed strong opposition to the proposed development of 95 homes at Thames Farm (P16/S0077/O). Approval would completely destroy the credibility of the Henley & Harpsden Neighbourhood Plan and, by extension, of other neighbourhood plans in the district. Please note that Thames Farm was included among the locations considered for housing during the preparation of the Plan and was deemed unsuitable for the reasons that have been clearly expressed in other submissions. We urge your committee to reject this application.

Regards

David Whitehead (Chairman, Henley Society Planning Cttee)
